PLASTIC FABRICATIONS

## ***GUARDS***

### ***Reasons why our guards are superior to steel guards***

- Rust resistant
- 1/3 weight of steel
- Improved worker safety handling our guards
- Quiet (No rattling)
- Excellent aesthetics
- Virtually maintenance free
- UV resistant
- Won't crack, split or swell
- Life Expectancy 65 years +

### ***BUILT RIGHT, BUILT FOR LIFE***

- Colour impregnated, no painting required
- Provides exceptional resistance to corrosive chemicals
- Weldable/ Bendable - suitable for fabrication
- Physiologically inert - approved for food applications
- Electrical insulation - it is a good insulator
- Weatherproof - it doesn't absorb water
- Chemical resistance - resists corrosive chemicals (e.g. Sulphuric Acid, Caustic Soda)
